Road Runner Chassis P/L

OZ TREKKER SUSPENSION

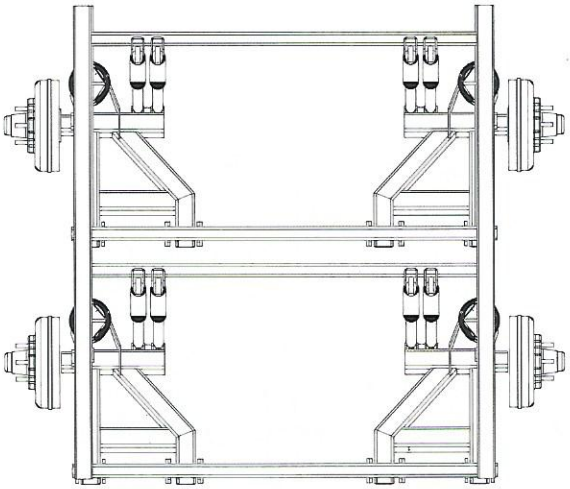

A COMPLETE BOLT ON SUSPENSION SYSTEM MADE IN AUSTRALIA

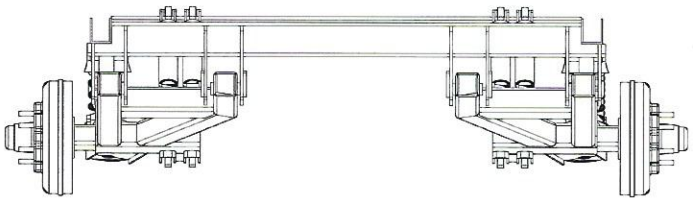

Oz Trekker is an Australian made independent suspension that stands tall as an Australian trailblazer in both the RV Industry and the Agricultural suspension sectors. Renowned for its exceptional capabilities in heavy duty off- road conditions, the Oz Trekker suspension has earned a reputation for reliability and performance. Our Oz Trekker suspension is built on a cradle that can be engineered to fit any chassis dimension.

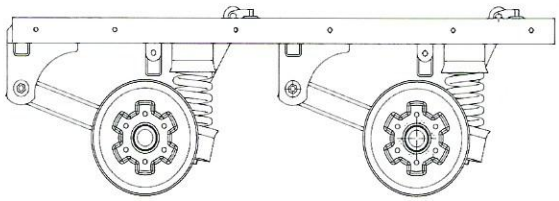

OUR SUSPENSION CRADLE CAN BE RETROFITTED TO MOST EXISTING RV & AGRICULTURAL VEHICLES

OZ TREKKER SUSPENSION

Designed with meticulous craftsmanship and engineering prowess, this suspension system has become the go to choice for adventurers and agriculturalists alike, who are seeking an unparalleled level of durability and efficiency across all terrains. With a commitment to excellence and dedication to quality, Oz Trekker suspensions continue to lead the way in providing innovative and robust solutions for those venturing out into Australia;s rugged landscapes.

From long distance journeys to demanding agricultural tasks, Oz Trekkers' innovative design and rugged construction guarantees a level of dependability that enthusiasts and professionals can rely on. As a true testament to Australian engineering ingenuity, Oz Trekker proudly showcases the best of the nation's manufacturing capabilities making it a product that can compete on a global scale.

Whether towing a caravan in the great outdoors or tackling rigorous agricultural projects the Oz Trekker independent suspension system provides an unbeatable combination of strength and adaptability. For those seeking an unmatched off-road experience Oz Trekker remains the epitome of excellence.
